### ABOUT ME

I have been working in the fields of game development and 3D designer for about 3 years. After that, I started to develop myself in the field of Cyber Security. I learned a lot of pentest tools and I continue to learn new skills about pentesting.

I took a lot of courses and certificates. Also, I attended the Cyber Security Bootcamp. In this process, I reinforced the ethical hacking methodology, took lessons and training on pentest report writing. I am also blogging all these things I learned on github.

I am an analytical thinker and a fast learner. As a computer engineering graduate, I expect to turn these skills and learnings into work experience. That's why I am looking for exciting job opportunities as a pentester in cyber security to gain work experience.

### EDUCATION AND TRAINING

[ 02/01/2023 – Current ]

#### Penetration Tester (Intern)

**Deloitte** <https://www2.deloitte.com/tr/tr.html>

- + Penetration Testing Report
- + Vulnerability Search
- + Web Penetration Testing Applications
- + Web Pentesting

[ 15/10/2022 – 21/11/2022 ]

#### BTK Advanced Penetration Testing Training

**BTK Akademi** <https://www.btkakademi.gov.tr/>

1. Penetration Testing Tools (in detail)
2. Post Exploitation and Post Exploitation Tools
3. Docker
4. Simple AD Network Setup
5. Web Penetration Testing Applications

[ 18/07/2022 – 09/09/2022 ]

#### Cyber Security Bootcamp (Techcareer & Kariyer.net)

**Techcareer** <https://www.techcareer.net/>

- + Cyber Security Web Penetration Tester
- + Penetration Test Tools
- + Active Directory

[ 18/07/2022 – 12/08/2022 ]

#### Network Infrastructure (Intern)

**Ultron Bilişim** <https://ultron.com.tr/>

**Address:** Ankara, Turkey

[ 02/08/2021 – 27/08/2021 ] **Software Engineer (Intern)**

*Cankaya Universitesi* <https://www.cankaya.edu.tr/>

[ 29/09/2016 – 04/10/2022 ] **Computer Engineering**

*Cankaya Universitesi* <https://www.cankaya.edu.tr/>

**Address:** Ankara, Turkey
